Acceptance letter

Date: 28.05.2024

To Mr. Moamen Saeed Ibrahim Moussa Talha

Address: Street 591, Sidi Bishr Qebli, District of El-Montaza first, Alexandria, Egypt.

Email: moamen.talha16@yahoo.com

Dear Mr. Talha,

I am pleased to confirm my acceptance of your invitation to serve as your local supervisor during your Master's degree studies in the Department of Biotechnology, Faculty of Biology and Biotechnology at Al-Farabi Kazakh National University.

As discussed, your research interests in microalgae cultivation for fatty acid production and wastewater treatment align well with my own, and I am eager to have you join our research team. Your knowledge and expertise in these areas will be a valuable asset to our ongoing projects and contribute significantly to our research goals.

I believe that your academic background and demonstrated passion for biotechnology make you an ideal candidate for our Master's program. I am confident that your research will be both impactful and rewarding.

I have formally communicated my support of your candidacy to the Higher Education Development National Center, and I encourage them to favorably consider your application.

I look forward to working with you and welcoming you to Al-Farabi Kazakh National University. Please do not hesitate to reach out if you have any questions or require any further assistance.

Assem Sadvakasova

Deputy Dean for Research and Innovation and International Relations

Associate Professor of the Department of Biotechnology,

Faculty of Biology and Biotechnology,

Al-Farabi Kazakh National University,
